

ASSIGNED**APPLICATION FOR PERMIT**

Serial No. 5761

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office SEP 23 1919
 Returned to applicant for correction _____
 Corrected application filed _____

The undersigned Alice S. MacFarland
Name of applicant
 of Indian Springs, County of Clark,
 State of Nevada, hereby make application for
 permission to appropriate the public waters of the State of Nevada,
 as hereinafter stated. (If applicant is a corporation give date and
 place of incorporation.) _____

1. The source of the proposed appropriation is Drilled Well
Name of stream, lake, or other source.

2. The amount of water applied for is Two second-feet.
One second-foot equals 40 miners' inches.

3. The water to be used for Irrigation and Stock watering
Irrigation, power, mining, manufacturing, domestic, or other use.

4. The water is to be diverted from its source at the following
 point: SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 11 T 16 S, R 55 $\frac{1}{2}$ E.
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is 160
 (b) Description of land to be irrigated E $\frac{1}{2}$ NE $\frac{1}{4}$ of Sec. 11, T 16 S,
Describe by legal subdivision, or if on unsurveyed land it
R 55 $\frac{1}{2}$ E, and W $\frac{1}{2}$ of NW $\frac{1}{4}$ of Sec. 12 T 16 S, R 55 $\frac{1}{2}$ E, M.D.B. & M. Same
should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
being the description as shown on a re-survey made by Thomas Haigh,
about to be approved and put in force by the U.S. Land Office.

(c) Irrigation will begin about January 1st and end about
Month.
December 31st, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION

(d) Power to be developed is _____ horsepower.

(e) Works to be located Pump to be installed on SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.
Sec. 11, T. 16 S, R 55 $\frac{1}{2}$ E, at the well.

(f) Point of return of water to stream _____
Describe in same manner as point of diversion.

(g) Remarks The source of the water is a drilled well on which a
pump will be installed, the water pumped into ditches and laterals.

DESCRIPTION OF PROPOSED WORKS

This is a drilled well on which a pump will be installed for delivering the water on the land by means of main ditches and laterals. State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works \$500.00

6. Estimated time required to construct works one year

7. Remarks

For use of applicant.

ALICE S. MAC FARLAND, Applicant.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.6 cubic feet per second. (One & six tenths)

Actual construction work shall begin on or before June 19, 1920.

Proof of commencement of work shall be filed before July 19, 1920.

Work must be prosecuted with reasonable diligence and be completed on or before June 19, 1921.

Proof of completion of work shall be filed before July 19, 1921.

Application of water to beneficial use shall be made on or before November 19, 1924.

Proof of the application of water to beneficial use must be filed with State Engineer on or before December 19, 1924.

Proof of completion of work filed JUL 19 1920

WITNESS MY HAND AND SEAL this 19th day

Cancelled MAR 5 1941 because of failure of March, 1920.

of applicant to comply with the provisions of permit

Alfred Hervey Smith State Engineer

State Engineer.

This permit is issued subject to all prior rights on the source. The amount of water herein granted is placed at 1.6 cubic feet per second for the full acreage applied for, notwithstanding the fact that this land has already been granted a water right from Mesquite and Twin Springs under permits No. 5760 and 5762 respectively, so that such amount of water may be diverted and used in the event that there is no water available in the sources described in permits No. 5760 and 5762. However, the total amount of water granted from the combined sources named in the three permits shall not exceed the statutory allowance of 1.6 cubic feet for water per second for the 160 acres proposed to be irrigated under the permits. The applicant will be required, at the time of filing proof of beneficial use of water, to definitely segregate the areas of land which obtain water from each of the sources described in the three permits, so that certificates can be issued for the land to which the water of each source is appurtenant. A substantial headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.
